Coleen Curry, Director—Academic Achievement Programs
John P. Vesalo, Coordinator—Pre-Engineering Program
Antoinette East-Jenkins—Academic Advisor
Pamela L. Woodall Caine—Secretary
Shayla Smith—Student Assistant

Goal

Pre-Engineering is designed to encourage and stimulate the interests of targeted high school students who have expressed or demonstrated interest and skill in mathematics or science to pursue careers in engineering.

Objectives

The objectives of Pre-Engineering are:

- To identify, recruit and select Upward Bound, Upward Bound Math/Science, ETS and STEP students who demonstrate the potential for success in engineering;
- To increase the students' awareness of career options for engineers and applied scientists;
- To provide hands-on learning opportunities designed to generate excitement about mathematics, science and engineering;
- To motivate and increase cognitive skills of students in the pursuit of careers in engineering and science;
- To demonstrate the realities of the workplace by providing on-site workshops and other local industry experiences;
- To provide educational enrichment programs;
- And to encourage completion of the college preparatory course to ready students for college engineering courses.

Participants

The Pre-Engineering target group is 7th through 12th grade University of Akron Academic Achievement Program students. Prospective students must attend a briefing with their parents, complete an application with essay questions, interview with the program coordinator, and maintain a 2.75 G.P.A. Forty students are selected for the program at the beginning of each academic year.

Supporting Partners

The University of Akron	The College of Engineering at The University of Akron
The U.S. Department of Education	National Museum of Education
The Upward Bound Program at The University of Akron	The U.S. Department of Agriculture
The Upward Bound Math & Science Program at The University of Akron	Lockheed Martin
The Educational Talent Search Program at The University of Akron	Local industry/research facilities
	National Society of Black Engineers

Program Services

Summer Component

For six weeks during the summer, Pre-Engineering students spend one hour and thirty minutes daily with engineering professors, engaging in building projects, participating in classroom demonstrations, attending lectures and visiting engineering departments at local companies. Applying scientific and mathematical principles, students and professors work together on projects such as designing bridges, building robots, launching rockets and designing circuits. The areas of emphasis are mechanical, electrical and civil engineering.

Academic Year Component

During the academic year, the program conducts weekly hands-on workshops and tutorial sessions. Utilizing a collaborative learning model, students are encouraged and challenged to work together on hands-on problem solving building projects and also in organized study sessions designed specifically to meet the needs of participants. The focus of the program is not only academic excellence but also to promote a positive competitive environment that embraces student success.

Other Activities & Program Events

- Field trips to science museums
- On-site career workshops and career fairs
- Projects, competitions: robots, bridges, radios, rockets
- Paid work internship opportunities
- "Engineer for a Day" shadowing
- Motivational speakers
- \$1,000-\$2,000 renewable scholarships provided by The University of Akron College of Engineering
- Annual academic year four-day major science trip
- Nationally recognized in journal publications

Profile of Recent Pre-Engineering Program Graduates

- 95% college enrollment rate
 - 76% majoring in mathematics, science or engineering
- Program graduates were placed in the following colleges or universities

The University of Akron	North Carolina A&T University
Bowling Green State University	Oberlin College
Case Western Reserve University	Ohio State University
Howard University	Ohio University
Kent State University	Purdue University
Central State University	LaSalle University
Morehouse College	Xavier University of Ohio
Michigan State University	Dartmouth
