**NOTES:**

- a. **English Comp I (ENGL 111) and English Comp II (ENGL 112)** are the recommended classes to meet the General Education Writing requirement. English (2020:121) can be used to fulfill the English Composition I requirement and Technical Report Writing (ENGL 222) can be used to fulfill the English Composition II requirement. C or higher grade required for admission to the School.
- b. **Natural Science Requirement:** Seven credits of Natural Science are **required for general education and preadmission**. One course **must** include a lab section. While a variety of science courses are offered, 7 credits are required.
- c. **Social Science Requirement:** 6 credits of Social Science are required for General Education and preadmission. Many Social Science courses are required for the program and will double-dip for GenEd and preadmission. See DPR for course choices.
- d. **Placement for a Math/Stats/Logic course is determined through academic advisor.** Eligibility for math courses is determined via placement test score, ACT and/or SAT-R scores, AP scores, or prior college level courses.
- e. The Student Teaching experience is considered full time teaching and is to be taken in the last semester of the program. Due to the nature of this experience students are not permitted to take other courses other than what is recommended in the last semester as listed above. Students must apply to student teach the **semester prior** to student teaching and should see the Director of Student Teaching regarding the experience. Dates and details can be found at: <https://www.uakron.edu/education/student-teaching/>
- f. Several math courses may be selected for content area; see: <https://bulletin.uakron.edu/undergraduate/colleges-programs/arts-sciences/education/integrated-mathematics-ba/#requirementstext>. Note that many of these courses may have prerequisites/corequisites and may not be offered every semester. Students may take 40 credits of Teaching Field Content Area courses in the STEM Option OR may take 40 credits of Teaching Field Content Area courses in the THEORETICAL Option. Courses in this program automatically qualify for a minor in mathematics. Contact the BCAS Advising Office for the form to add a minor.
- g. If you take MATH 421 Advanced Calculus I, then either MATH 412 Abstract Algebra II or MATH 422 Advanced Calculus II, and 3-6 credits of 300/400-level mathematics electives, you can get a second major in math.

**Course substitutions or waivers may only be approved by the faculty advisor for this program.**

**FBI/BCI:** Certain education courses require BCI and FBI background checks which are used by area schools for placement made during the day. The Ohio Department of Education maintains a list of criminal convictions that disqualify applicants for a state educator license.
