University Annual Contribution (Credit)		\$6,145	\$12,298	\$11,670	\$17,824

\*Employee contribution amounts are calculated based on a percentage of the plan rate. The rates listed above are annual rates. For employees paid monthly, take the rate above and divide by the number of pays you have per year for your deduction per pay. i.e., 9 month divide by 9 pays per year. For employees paid bi-weekly, divide by 24 to get your per pay deduction. Note for bi-weekly employees there are two pays per year that do not have benefits deducted.
