DEFINING BENEFITS ELIGIBILITY

The Benefits Eligibility Chart which follows on the following page lists the benefits available to each employee classification. Some programs also may have additional eligibility requirements, described in greater detail throughout this overview.

The University of Akron uses employee classifications along with percentage full-time equivalency (FTE) to define benefits eligibility. It is important to know the class under which your position falls, because your benefits are tied to your appointment and FTE. If you are unsure of your employee classification or appointment type, FTE or standard hours, check with Classification Services.

FULL-TIME EQUIVALENCY (FTE)

- 100% FTE = 40 standard hours per week
- Less Than 100% FTE = 39 or less standard hours per week

BENEFITS ELIGIBILITY CHART

The following chart summarizes eligibility by employee classification for the listed University benefits. A box without a symbol indicates that the employee classification is not eligible for that specific benefit.

MEDICAL PLAN OPTIONS

Your medical benefits provide comprehensive coverage for planned and emergency care. Each plan's provisions vary, so you have flexibility when deciding which option is right for you and your family. Both of the medical plans provide coverage for the same types of medical services; however, the premium for each plan varies based on how the plan has been designed to pay for those services. When selecting a plan, think about how frequently you visit the doctor, whether you need out-of-network coverage and how you want to balance your monthly contributions with what you are required to pay for medical services you obtain.

Both plans are administered by Anthem and allow you to receive in and out-of-network care for medical services that are typically subject to an annual deductible and coinsurance. Some in-network services such as primary care, specialist and urgent care visits are subject to a copay. These services are not subject to the annual deductible when received in-network. To search the provider directory, visit the benefits website at www.uakron.edu/hr/benefits or visit: www.anthem.com.

- GOLD PPO 85% - This plan has a higher employee payroll contribution and offers lower annual deductibles, coinsurance, out-of-pocket maximums and copays. Annual preventive care exams have a \$0 out-of-pocket cost.
- BLUE PPO 75% - This plan offers a lower employee payroll contribution but has higher annual deductibles, coinsurance, out-of-pocket maximums and copays. Annual preventive care exams have a \$0 out-of-pocket cost.

USING THE BENEFIT

The plan offers you a choice of network or out-of-network coverage.

- Anthem offers national network coverage through the Blue Access PPO network. Search for a provider via www.anthem.com.
- If you use a network provider - Tell the provider's office that you are covered by Anthem Blue Access PPO network when making an appointment, or at the time of service. Take your Anthem identification card with you at the time of service.
- If you use a non-network provider - Your provider may require you to pay for services in full and be reimbursed from Anthem by filing a claim form.

PRESCRIPTION DRUG PROGRAM

All of the University's medical plans include prescription drug benefits through CVS Caremark.

All prescription drugs that are covered under the Plan fit within one of the following categories:

- **Generic:** A non-brand name drug that has the same active ingredients as a brand-name drug and is sold for substantially less than the brand-name drug.
- **Preferred:** A drug that is on the list of preferred brand name drugs and requires you to pay less than you would pay for a non-preferred drug. Drugs in this category are based on a combination of factors, including safety, effectiveness and cost.
- **Non-Preferred:** A drug that is not on the list of preferred brand name drugs and requires you to pay more than you would pay for a preferred drug.
- **Specialty:** Drugs that are used in the management of chronic or genetic diseases, including injectables, infused drugs or oral medications, or drugs that otherwise require special handling.

For a detailed list of the drugs covered under the Plan, you may call CVS Caremark Customer Service at (888) 202-1654 or visit www.caremark.com. Note: The category to which a particular drug belongs may change periodically based on CVS Caremark's formulary. These changes may occur without notice to you.

USING THE BENEFIT

Retail Purchases

The Plan allows you to fill prescriptions at a retail pharmacy. You should use a retail pharmacy when filling short-term prescriptions for medications such as antibiotics. You are generally able to receive up to a 30-day supply of medication (through a retail pharmacy).

Mail Order Service and Maintenance Choice Purchases

You should use the Plan's mail order service or a retail CVS pharmacy when filling long-term maintenance medications. Maintenance medications are used to treat chronic illnesses such as heart conditions, allergies, high blood pressure, and arthritis. Through the mail order service and at retail CVS pharmacies, you are able to receive up to a 90-day supply of your medication.

To obtain a prescription through the Plan's mail order service visit www.uakron.edu/hr/benefits.

UTILIZATION MANAGEMENT

The Plan uses tools such as co-payments, mandatory generics, step therapy, prior authorization, and quantity limits to provide better prescription coverage while managing the rising costs of prescription medications. These programs are designed to maximize value. The goal is to help you choose a medication that's proven safe and effective for your condition, while getting it at the lowest possible cost. By using the most cost effective first line medications you will not only save money with lower co-payments, but the plan saves as well; helping to ensure that the Plan can continue to provide excellent prescription coverage for you and your family.

Mandatory Generic Medications

The Plan uses a mandatory generic substitution program whereby participating network pharmacies and the Plan's mail order service will substitute brand name drugs with generic equivalents, when generic equivalents are available and appropriate. This program will not be applied when the prescription contains a "dispense as written" restriction or when the Participant has requested that only the brand name drug be dispensed.

Step Therapy Program

A step therapy program is designed specifically for patients with certain conditions that require them to take medications regularly. It is the practice of beginning medication therapy for a medical condition with the most cost-effective drug and progressing to other more costly therapy(s) should the initial medication not provide adequate therapeutic benefit.

Prior Authorization Requirement

Certain prescription drugs are subject to prior authorization from the Plan. This means that you must obtain approval through CVS Caremark before your medication will be covered under the Plan.

Quantity Limits

Quantity limits are used to manage the quantity of medications available to any member that may be potentially harmful, subject to abuse, is not consistent with the standard of care in today's medical practice, or other reasons. Certain lifestyle medications (such as Viagra, Cialis) are subject to quantity limits or other medications that could potentially be harmful if certain dosages are exceeded. Members may obtain prior authorization to receive such medications at the higher than normal dosage when medically necessary.

"Dispense as Written" Restriction

If you or your doctor chooses for you to receive a brand name drug when a generic drug is available (such as when the prescription contains a "dispense as written" restriction), you will be responsible for paying the appropriate co-payment in addition to paying the difference between the cost of the brand name drug and the cost of the available generic drug.

Maintenance Choice/Retail 90 Network

You have the option of receiving long-term maintenance prescription drugs through the Plan's mail order service described above or at a local CVS retail pharmacy. This program provides you with the flexibility to decide which delivery system is most convenient to you

Specialty Guideline Management

The Specialty Guideline Management program evaluates the appropriateness of drug therapy for specialty medications according to evidence-based guidelines both before the initiation of therapy and on an ongoing basis. This program is available for all specialty conditions, and outreach is made to both the participant and the prescriber to evaluate the therapy.

Specialty Connect™

A participant may take advantage of this program by dropping off or having a specialty prescription sent to any CVS retail pharmacy, or the participant's doctor may send the prescription to the Plan's specialty mail order service. A participant may then choose to pick up specialty medications at a CVS retail pharmacy, have them shipped to the participant's home address, or have them shipped to a location of choice.

Vaccination Network

This program offers broad access to routine vaccination services through more than 50,000 retail pharmacies, including CVS retail pharmacies. Vaccines are available when an immunizing pharmacist or MinuteClinic® practitioner is on duty, and may require a

prescription. A Participant will need to provide a Plan ID card and photo ID at the pharmacy.

For specific details on utilization management programs, you may visit www.caremark.com or contact CVS Caremark Customer Service at (888) 202-1654 for more information

FLEXIBLE SPENDING ACCOUNT (FSA)

DEPENDENT CARE FSA

- This account reimburses you for any child and dependent care expenses (daycare, private sitter, etc.) that would otherwise be eligible for a tax credit by the IRS.

- Eligible expenses can be reimbursed only up to the current balance of payroll contributions in your account and cannot exceed your annual election amount.

YOUR FIRST 120-180 DAYS

RETIREMENT PROGRAM CHOICES

STATE RETIREMENT PROGRAMS

STRS and OPERS offer choices of three plans within their systems to new members. Watch for an introduction mailer from STRS or OPERS to learn more about their plan offerings.

THINGS YOU SHOULD KNOW

Ohio public institutions do not participate in the federal Social Security system, other than contributions to Medicare. Instead, faculty and staff are required to participate in the Ohio state retirement system. In recognition of the diverse retirement needs of employees, the state provides retirement through two systems, one for staff/administrative contract professionals and one for faculty/academic contract professionals. An additional option is also available to eligible employees of public institutions who hold a full-time position of 100% FTE. These are:

- Ohio Public Employees Retirement System (OPERS) for staff and State Teachers Retirement System of Ohio (STRS) for faculty
- The University of Akron Alternative Retirement Plan (ARP) 401(a)

It is important that you understand how each program works so you can pick the one that best fits your retirement savings objectives. You should carefully consider your personal situation before making an election. You also may want to seek the advice of a retirement planning professional who is familiar with the plan options.

If eligible, you have 120 days from, and including, the effective date of your eligible appointment to make your irrevocable election and enroll in either ARP or OPERS/STRS. Benefits Administration must receive your completed Retirement Program Election form by noon on the last business day before the 120th day. If no election is made, you will automatically be enrolled in OPERS/STRS. If you elect or default to STRS, you have an additional 60 days to complete the STRS paperwork and make a selection between their three plans.

If you elect the ARP, you must choose and contact an ARP provider and complete the required account forms. Your enrollment in ARP is not complete until you have enrolled with your chosen ARP provider.

Retirement contributions will be sent to either OPERS or STRS (based on your appointment classification) until an election is made between the appropriate state system and the ARP (if eligible). If ARP is elected, contributions as of your ARP eligibility date will be transferred automatically to your chosen ARP providers by OPERS/STRS. You do not earn service credit under the state system while participating in the ARP.

Attention Returning Retirees:

The ARP option is available

- If you hold at least a 100% FTE and were not previously offered the option to elect the ARP during employment prior to retirement or;
- Retired from the university more than 365 days or;
- Are eligible as new hire.
- Individuals not eligible for the ARP will pay into the OPERS/STRS money purchase plan.

Contact OPERS/STRS about any impact reemployment may have on your OPERS/STRS health care coverage.

TYPES OF PLANS AVAILABLE AND THEIR CHARACTERISTICS

The retirement plan options differ in several ways. The basic difference is in how the retirement benefits are determined.

DEFINED BENEFIT (DB) PLAN

The defined benefit plan is available through OPERS and STRS. In this type of a plan, your retirement income is determined by a calculation that uses:

- Your age
- Your years of service
- Your final average salary

You and the university make contributions to this plan to fund the retirement benefits. The investment of contributions in this plan type are managed OPERS/STRS; therefore, you do not bear any investment risk. Your benefit grows as your years of service and final average salary increase.

DEFINED CONTRIBUTION (DC) PLAN-401(a)

A defined contribution plan is available through the ARP, and STRS. In this type of plan, your retirement income is driven by several variables:

- The performance of the investment choices you select
- The amount of contributions deposited to your account (your contributions and the university's)
- The payment option you choose at the time of retirement

You and the university make contributions to this plan and you decide how to allocate those contributions among a variety of investment options. Your balance at your retirement is equal to the contributions made to the plan and the investment earnings or losses the account experiences.

When participating in a defined contribution plan, the law requires that a portion of the employer contribution be sent to the state system to be applied towards the unfunded liability associated with the defined benefit plans ("mitigating rate"). This amount may be

adjusted up or down on a periodic basis as determined by State law and the retirement systems.

COMBINED PLAN

The combined plan is available through STRS only. This plan includes features of the Defined Benefit and Defined Contribution plans. Your retirement benefits is determined by:

- A formula that uses your age, years of service and final average salary
- And a portion from contributions to the plan and the investment earnings or losses on that account

You and the university make contributions to this plan. You determine the investment options under the defined contribution portion of the plan. At retirement, you receive a portion from the defined benefit formula and your account balance for the defined contribution portion.

There are many important factors to consider when selecting your retirement plan. Carefully consider your options. You may want to speak to a retirement planning professional to discuss your long term- financial goals and other personal considerations such as your risk tolerance, your potential length of employment, and other retirement savings.

AVAILABLE THROUGHOUT YOUR UNIVERSITY EMPLOYMENT

SUPPLEMENTAL RETIREMENT ACCOUNTS (SRA)

Many private sector companies offer 401(k) plans. As a university employee, you have the opportunity to contribute to something similar called a Supplemental Retirement Account (SRA). SRAs allow you to enhance your retirement plan savings through voluntary contributions and include the Deferred Compensation Program (457(b) plan) and Tax-Deferred Accounts (403(b) plan), and Roth plans. Contributions to the 457(b) and 403(b) are on a pre-tax basis. Roth 403(b) and 457(b) contributions are on an after-tax basis.

ENROLLMENT

With the [Retirement@Work Online Portal](#), you can manage your savings online in one spot whenever you want. After you've selected the amount of contributions and the type of plan you want, you will be directed within the portal to choose a vendor or provider. You will then open an account with that vendor. The account must be opened for contributions to be deposited. If the account is not opened, the election will be null and

void, and any deductions will be returned.

You may enroll at any time during eligible employment through the [Retirement@Work Online Portal](#),

- 403(b) contributions will begin on the pay date you designate or, if later, the next pay after receipt of election information
- 457(b) contributions begin the month after the election is made

MAKING CHANGES TO YOUR SRA

You may change your SRA contribution amount and/or your provider at any time through the [Retirement@Work Online Portal](#). Your existing SRA balance may remain with your previous active provider, or a portion may be transferred to the new provider, pending your investments allow this.

SRA PLAN CONTRIBUTIONS

The university does not make contributions to your SRA.

403(b) and 457(b) contributions are deducted from your pay on a pre-tax basis.

Roth 403(b) contributions are deducted from your pay on an after-tax basis.

INVESTMENTS

Each provider offers a variety of options in which you may elect to invest your contributions.

You assume the investment risk; all earnings and losses accrue to your account.

You assume the cost for any management fees (loads) associated with your investments, which may vary from provider to provider.

ADVANTAGES

By joining the plan, you will:

- Lower your current state and federal taxes through tax-deferred savings
- Save toward retirement
- Have automatic deductions each pay period
