Why Should I Complete the Survey?

We are here to assist you in getting back to work as quickly as possible. For us to do that, we need your help! Please take 5 minutes to complete our Rapid Response Survey.

The information you provide helps us customize resources and opportunities such as workshops as well as matching your skill set to hiring employers.

It also allows us to secure funding for potential training opportunities. Training opportunities may include formal training through an approved training provider or On the Job Training (OJT) which can help your future employer offset training costs for your new position.
