

UNLOCKING A WORLD OF OPPORTUNITIES

FOR GLOBAL SCHOLARS

Students from all over the world choose to study at The University of Akron (UA), where they find opportunities to learn from expert faculty and gain valuable real-world experiences while being surrounded by a vibrant and supportive student life. Whether you're pursuing an undergraduate or graduate degree, UA's globally and nationally recognized strengths in academic programs and partnerships with industry leaders all lead to excellent career outcomes.

THE ACHIEVEMENTS SPEAK FOR THEMSELVES.

- **Ranked #1 in the U.S.** for polymer science and plastics engineering, according to *EduRank*
- **No. 1 undergraduate business school** in Northeast Ohio (Poets and Quants)
- **Best Regional Colleges-Midwest** (Princeton Review)
- **No. 2 esports college program** in the U.S. (dailygame.net)
- **Top 10 best colleges** and universities in Ohio (academicinfluence.com)
- **Only aerospace systems engineering bachelor's degree*** program of its kind in the U.S. outside of the Air Force
- College of Business is in the **1% of schools worldwide** offering business degrees that are doubly accredited in business and accounting
- Home to one of the **first co-op programs in the country**
- **Thirty-five current UA faculty members** named among world's top 2% of scientists
- Kangaroo mascot, Zippy, is **one of six female mascots** in the nation, and was named **College Mascot of the Year** in 2008
- UA's Residence Hall Program Board was named **Programming Organization of the Year** for the Mid America Region of the National Association for Campus Activities in 2021 and 2022

* To finish this degree program, students must complete several required co-ops with corporations or governmental entities. International students may not be able to participate in co-ops based on export control laws. We suggest you request to study mechanical engineering and take aerospace classes as electives.

THE IMPACT IS HUGE.

95% 

spring 2022 graduates were engaged in employment, volunteer work, military service or further education

AVERAGE STARTING SALARY

\$64,287

of Bachelor Degree Graduates

86%

of spring 2022 bachelor's degree recipients participated in at least one form of experiential learning before graduating

STUDENTS SAY OUR STRENGTHS ARE:

- **PRESTIGE** — Many of our programs, such as those in our College of Engineering and Polymer Science and College of Business, are recognized as national and global leaders.
- **COMMUNITY** — UA is a “home away from home” that opens the door to new relationships.
- **EXPERTISE** — Students learn from expert faculty who earn millions in research funding, work on space equipment and more.
- **SUPPORT** — Students are constantly feeling encouraged by their peers and professors.
- **LEARNING ENVIRONMENTS** — Small faculty-to-student ratios, especially in lab settings, result in better learning outcomes.
- **LIMITLESS OPPORTUNITIES** — Through academics and student life, you'll explore your passions, and discover new ones, while accomplishing your goals.
