

National Interstate’s Ignition Training Program is a month long program that develops our recent graduates as they learn more about National Interstate, the insurance industry and the various departments they will work with. Students who participate in the Ignition program not only are provided with business sessions and professional development opportunities, but also fun social events to build relationships such as the Akron Rubber Ducks game and Whirley Ball! The Ignition program looks for recent graduates who are coming into the roles listed below and more. Visit careers.natl.com to see all open positions!
